THE WORLD'S FAIR.

Ohio School Exhibit—Full Meeting of the

Board of Education, Columbus, O., July 1.

World's Fair Commissioner Ryan re-turned from Cleveland last evening.

While there he met school principals and arranged for an Ohio school exhibit which will fill a space of 5,000 square feet.

Applications for space were also received from the Case School of Applied Science, the Cleveland Normal school and the Cincinnati Normal school and the Cleveland Manual Training school.

It has been decided to hold a full session of the board about the middle of July in the office of the commissioner here, immediately after which the en-tire board will go to Chicago.

There was a meeting of the executive com-mittee here Thursday morning to audit accounts.

The executive committee also re-ceived the treasurer's report, which is as follows: Total cash received to date \$10,000; total cash paid out to date \$8,209.44; total funds in hand \$1,790.56.

Other reports were made by Mr. Ryan. The salary of H. J. Cleveland was fixed at \$100 per month and expenses from June 1 to October 1. Architect Pack-ard and his wife were in the Columbus building at the World's Fair. For ex-penses of the board, the treasurer was ordered to draw \$34,765, which will run them until September 30.

LABOR'S CRISIS.

CARNEGIE'S COMPANY REFUSED TO MAKE

Any Concessions to Their Men and Imported Hated Pinkertons.

Who Fired on the Wage Workers and Brought on a Big Battle.

The Three Hundred Hensons Sur-rendered to Save a Massacre.

Having Been Caged Like Dogs on Barges Raked by Hot Fire.

The Captured Detectives Marched Like Whipped Cows to the Pink-Graphic Account of the Fight—The Loss in Killed and Wounded.

THE DETERMINED STRIKERS.

The last of the men from the boat in file, and for a moment did not know what to do with them. Cries of "To the woods to the woods, Lynch the dogs."

Striker seemed as if he wanted a par-ticular man among the Pinkertons.

After considerable parley some one sug-gested that the guards be marched to the big skating rink and there tried for murder. Many of the captors would not listen to this. Some wanted to take the strikers and

shoot them as they stood.

Cooler heads, however, prevailed and the march to the rink began.

The Pinkertons were scared half to death as the jobs of the strikers were not calculated to inspire them with any hopes of mercy. Many of them quaked with fear, and had to be supported to keep from falling as they walked. Ser-eral thousand people crowded around them, on all sides, and demanded re-venge for the killing of the strikers during the day.

side a Hungarian, Martin Merry, shot while stopping over Merry, will probably die: a Welsh workman shot while at-tempting to raise the body of Merry, seriously wounded; Geo. Ritter, thigh shat-tered; J. W. Kline, shot in head, dying; Albert Gett, shot in right leg, will re-cover, unknown man, evidently badly hurt; F. H. Heind, captain of detec-tives, shot in left leg; J. G. Hollman, shot in the right leg; W. Russell, shot in the shoulder; Geo. Lester, shot in the head. The list is as complete as it is possible to make it at this time. Many wound-ed have been spirited away by friends. Some of the dead have been removed the same way.

Pinkerton Don't Believe It.
CINCINNATI, July 6.—Wm. Pinkerton said that he had a telegram saying that absolutely none of his men were killed and not more than two wounded. He said that they are private watchmen who are unarmed and unprepared for an attack.

ANOTHER BATTLE.
Pittsburgh, July 7.—A number of Pinkertons were drowned when the barge was fired. The Pinkertons and strikers opened up fire again and are picking the other off one by one.

At 3 o'clock eight bodies have been taken out of the part of the Home-steel mills extending over the old por-tam. Nine are dead. Two were Pink-ertons. Pinkerton on a barge has just been shot dead.

The sheriff appeared again to the gov-ernor. The governor said that he had cured another cannon and shot of them are now bombarding the barge. The other workmen are trying to blow up the barge with dynamite cartridges.

Another Pinkerton has just been shot while trying to raise a white flag.

Let's Give 'em a Good One.
WASHINGTON, July 7.—Representative Cammeratt of California, introduced a resolution in the House which passed, it was for the appointment of a com-mittee to investigate the strike at Home-steel mills.

Governor Pattison.
HARRISBURG, Pa., July 7.—Governor Pattison is not from information given from Pittsburgh, satisfied that Sheriff McCleary has done his full duty in call-ing to his assistance deputies to pre-serve peace and has sent the following to the strikers:

"How many deputies have you sworn in and what measures have you taken to enforce order and protect property?"

The above telegram was sent after a protracted consultation between the gov-ernor, secretary of commonwealth, and attorney general. The governor has received a dispatch from a mem-ber of his staff, placing the number of dead at eight, and representing the situation as exceedingly grave.

Burning on.
Pittsburgh, July 7.—The attempt to burn barges proved a failure because a strong current changed the course of the blazing mass and it drifted past the enemy without doing any harm. One of the causes for the transfer of the bat-tery from the barge and the company yard was the fact that Davis, an association man, was beheaded by a cannon ball which whistled harm-lessly over the barge and the men on it.

There was little pity expressed for the captured guards.

How the Strikers Fought.
HOMESTEAD, July 7.—Hugh O'Donnell took a representative of the press into the steel works and escorted him around and among the men who were giving battle to the two large loads of Pinkertons. The men who were fighting the shooting kept them-selves concealed and every few minutes peered carefully out and fired at what-ever they thought worth shooting. It is believed that they killed or badly wounded ten or fifteen men from the Pinkertons.

Occasionally a Bullet.
The barges would strike one of the riflemen and he would have to be helped to the shore. Strikers were brought into play two or three times during the morning and the dead wagon of an undertaker was driven along to the river bank. Strikers were shot dead and up to that hour been shot dead since the first attack on the Pinkertons. The tug boat "Little Bill" came in for one of the heaviest attacks. It was fired with the Pinkerton barge, and men upon her were seen to drop, the crowds on the railroad sent up a mighty cheer. The tug was fired the American flag and the strikers sang the song augmented by sight of it, they thinking that a boat which came on the mission of bringing men to make war upon them had no right to display that emblem.

Several efforts were made to flood the river where the tug and the barges lay, with burning oil, but without success.

The Loss.
Pittsburgh, July 7.—Ten were killed and forty-four were wounded on both sides, of whom three Pinkerton men were killed.

Thirty-Eight Killed.
Pittsburgh, July 7.—The report that barges containing Pinkertons were coming down the river was true. The steamer, "Little Bill," attempted to resist but was driven off. The pilot was killed. The fight continued, many are killed and wounded. The Pink-ertons displayed a flag of truce three times only to have it shot away. The strikers are evidently determined not to let them get away. The strikers are transferring their cannon from the north to the south side to get closer to the barges. A large military force will be required to quell the riot. Twenty-five are killed and many more wounded. One report says thirty-eight are killed. Governor Pattison has gone to the scene of the riot and it is said he has ordered out a brigade of state troops.

A Sheriff McCleary has gone up the river with fifty deputies.

KILLED AND WOUNDED.
Long List of Names of Victims of the R.-S.

HOMESTEAD, July 6.—The list of killed and injured as far as it is pos-sible to learn is as follows:
